

La Jolla

Tommy Bahama
OUTDOOR LIVING

La Jolla

The architectural lines of La Jolla offer a casual interpretation of contemporary living, and a look that blends seamlessly with any outdoor environment. The horizontal Pan-Asian design theme is softened by graceful radius corners and plush upholstered seating.

Crafted from sustainably-sourced Indonesian teak, designs feature a custom finish that enriches the character of the wood while offering superior protection from natural elements. Resilient faux slate tops on occasional tables add textural interest, while an array of performance fabrics offer styling options ranging from an understated neutral aesthetic to a bold design statement.

Tommy Bahama
OUTDOOR LIVING

The Vintage finish on La Jolla offers a sophisticated taupe-gray patina that blends beautifully with performance fabrics in neutral color palettes, which are extremely popular. The protective finish enhances the look while minimizing the normal maintenance associated with natural teak. Accent pillows shown are optional.

Refined outdoor living involves creating comfortable spaces that encourage interaction and conversation. Here, the 47-inch diameter cocktail table serves as the centerpiece for the setting, blending a faux slate top with a striking contemporary base design. Note how the radius is repeated in the designs of the sofa and lounge chairs. Accent pillows shown are optional.

The custom finish on La Jolla is designed to enhance the natural characteristics of the wood, and to provide a level of protection that allows teak to age to a sophisticated silver-gray patina over a period of time with minimal maintenance.

The initial step is to wire-brush the solid teak to enhance natural grain patterns and the surface texture. A water-based finish is then applied in four steps, including a basecoat, glaze and two sealers. From there, the surface is dry-brushed by hand to add tonal highlights to the wood.

The final steps are the application of a hand-brushed topcoat to ensure adhesion, followed by a sprayed topcoat of exterior polyurethane with added UV protection.

The Vintage finish is designed to enhance the natural aging process of the teak, taking it from a light golden coloration to a sophisticated taupe-gray patina. At the same time, the finish offers protection from the natural elements and UV fading that is far superior to regular applications of teak oil. Over time, the wood surfaces will still lighten to a rich silver-gray coloration, which is considered the hallmark tonal quality of legacy teak furniture.

DINING TABLE TOP CONFIGURATIONS

ACCENT PILLOWS

Since most like to customize the size and configuration of their accent pillows, upholstered seating in La Jolla does not ship with standard accent pillows. Seven different sizes and shapes of pillows are available. They may be specified with standard ¼ inch welts, larger ½ inch welts or without welts. All pillows feature 100% all-weather fiber in a water-resistant ticking that is thermally sealed to deter water penetration.

DECORATIVE TRIMS, FRINGES, TAPES AND CONTRAST WELTS

Numerous trim options are available on accent pillows, including contrast welts in any fabric as well as decorative cords, fringes and tape treatments. Please see the Tommy Bahama Outdoor Living price list for details.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A "performance fabric" is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on the finest indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious "crown" to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
